

# Mug Handle Assembly

The pieces you need for the handle and above and below the mug are included within each month's cutting instructions. They are the same for each mug. If you'd like to precut the pieces for the year, you'll need 12 sets of the following:

## White

S	1 ½ x 1 ½"	4
T	1 ½ x 2 ½"	2
U	1 ½ x 4 ½"	1

## Grey

V	2 x 12 ½"	2
W	1 ½ x 3 ½"	1
X	1 ½ x 1 ½"	2
Y	2 ½ x 4 ½"	1
Z	2 ½ x 3 ½"	1

Draw a diagonal line on the wrong side of each white S square.

Stitch one piece S to the upper right corner of piece Y. Add a second piece S to the lower right corner of piece Y.

Sew piece U on the right of the section you just created.

Stitch the remaining S pieces to the two grey X pieces.

Sew those to the T pieces with the white edges touching.

Stitch the two T sections to the Y section with the white corners toward U.

Add the W piece to the top the section and the Z piece to the bottom.

Sew this handle section onto each block as indicated in the pattern.

Add both pieces V to the top and bottom of the block to complete.
